

Meet Mrs Richardson's dog,
Bailey.

He is enjoying
sitting (and sleeping)
in his garden during
Lockdown a little bit
too much....

and now even refuses to go out for a walk!

Mrs Richardson needs your help.
Bailey might not want to go out,
but he still needs exercise.

Your task is to design a dog exercise machine that Bailey can use in
his garden.

Who can be the most inventive?

Remember to send your photos in for the website.
