#### **Online Learning, Team Meetings and Video Sharing**

The challenges of COVID-19 have meant changes to so many aspects of school life, leading to systems where remote/online learning, video sharing, and Teams meetings are a part of the day-to-day teaching and learning experience. We are pleased to have an opportunity to stay in touch with pupils who are not in school, and to share teaching and learning to the best of our ability.

To do this, we have to think about what platforms best suit our needs. The platforms we are using are:

- Microsoft Teams
- Purple Mash
- White Rose Maths
- Active Learn
- Emile
- Class Dojo
- Language Angels
- Espresso Education
- Scratch

Inevitably for pupils and parents, access to these platforms will require a degree of sharing personal data. This might be a name, a school email address for pupils, a parent's email address to logon etc. We want to make sure you use the minimum amount of personal information, and all of the platforms are clear about how this can and cannot be used.

How they use the data is set out on the websites of these service providers. If you want more detail, please log on for clarification.

- Scratch [Scratch - Privacy Policy \(mit.edu\)](https://scratch.mit.edu/privacy-policy)

Some platforms involve uploading videos, documents and other items between teachers, pupils and parents.

Other forms of online learning might involve meetings where information about individuals can be seen, for example names and email addresses. These are likely also to be shared with these third-party systems, so you must be aware that when information is input, it is beyond the control of the school.

All the systems we use have stated their commitment to effective data security and GDPR compliance.

When any parent or pupil is uploading material, whether video, photo or a document, you must be aware of the platform you are uploading it to and the fact this is stored outside of the school setting.

**Live meetings which have been arranged by the class teacher will never be recorded.**

Please see the protocol for online/remote live meetings, teaching and learning. This sets out expectations about how sessions will be managed when live sessions are being used.
