

# Help decorate our Advent Gate.

We need lots of baubles and tinsel making from re-cycled drink bottles. Ask an adult to help.

Cut the top and base off a drink bottle.

Make 2 holes in the centre of your bauble.

Paint the inside of both the top and base.

- \* Cut the top and base off a plastic drinks bottle. Any size will do.
- \* Paint the inside of both top and bottom with acrylic paint or spray paint. If you want to create a design on the 'bauble': paint the pattern on first; allow to dry and then overpaint with your chosen base colour.
- \* Make two holes in the centre of the bauble to help attach it to the fence.
- \* Use the top to make 'tinsel'.
- \* Carefully cut narrow strips around the top of the bottle to create a fringe effect.
- \* We will string lots of these fringes together to create the tinsel.
