Action Plan

Eco-Schools Topic: Energy

Aim: To reduce and monitor the energy use we use in school.

To look at renewable energy source for school.

Action(s):

- To create posters to share with staff and pupils why we are asking staff to pick 2 energy monitors in each class.
- Eco committee to read the meter readings once every half term. Create a rota so everyone has a turn.
- Look into a renewable energy source for school.

How long will it take?

2 – 3 weeks to fully implement the energy monitors in each class, committee to start a rota to view the energy meter in groups of 5 children. As well as time to research and discuss with our admin team renewable energy sources for school.

Who is responsible?

- Evie
- Eve
- Cannan

How we will monitor progress:

For the rest of this academic year.

Evaluation:

Eco-Schools Topic: Water

Aim: To collect and reuse rain water in a safe way around school.

To research the expense of self-stopping taps compared to water usage.

Action(s):

- To contact a parent and Foss to ask for the materials and the work to be done to install water butts.
- To create posters to share with breakfast club and after school club to share why we are asking the children to be the water monitors.
- To look into self – stopping taps and compare to the water expense and usage.

How long will it take?

2 – 3 weeks to fully implement the water monitors, to contact a parent and Foss. As well as time to research and discuss with our admin team self- stopping taps.

Who is responsible?

- Scarlet
