

Name of child \_\_\_\_\_.

Parent PE and Sport Questionnaire.

At Stanley St. Andrew's Primary School, we are committed to providing a wide-ranging and engaging PE curriculum where every child has the opportunity to find something they are good at and enjoy. We would like to develop or add to the activities that our school already offers.

Please answer this questionnaire below to provide your thoughts on PE and sport, and to offer any suggestions that may help us move forward.

1. Does your child enjoy PE? What do they enjoy most about PE lessons?

2. Is there anything you child does not enjoy about PE?

3. Does your child attend any sports clubs out of school? Please list below.

4. Do you have any links with local sports clubs, perhaps through other family members or friends?

Please provide any details of these including club name and contact details.

5. If you or a family member would be able to come into school to support the children, either by running an after school club or supporting members of staff, please state any details below.

6. What information regarding PE and sport would you find useful?

7. How do you think we could improve PE and sport at Stanley St. Andrew's?

Thank you for your support.
