

The Rainbow Games

National Sports Week

Pupil instructions

Your school invites you to take part in The Rainbow Games 2020.

Your school would like to run these games as part of
National Sports Week 20th June - 26th June

In this pack you will find 'The Rainbow Games Values'. These are key to how you should approach the games. You will need to complete one game for each day of National Sports Week and record your score on the score sheet provided. You can have as many attempts at the challenges as you like in one day. Record your best score and submit your score sheet to your school. *Your teachers will let you know how to submit these.

The activity changes for EYFS, KS1 and KS2. Other household members are welcome to play the games. If they are an adult they should attempt the KS2 challenges. If they would like to send in their scores also, they can do so.

Your points may be added to other pupils in your school so take part, try your best, smile and submit your score!

You will be sent a certificate if you are able to complete
The Rainbow Games.
