

Stanley St Andrew's Church of England Primary School

Curriculum Policy

As a church school we believe that every person, every child and every adult is unique and special with God given gifts and talents which is our job to nurture and cherish.

1. Introduction

1.1 The curriculum is all the planned activities that we organise in order to promote learning and personal growth and development. It includes not only the formal requirements of the National Curriculum and the EYFS (Early Years Foundation Stage), but also the range of extra-curricular activities that the school organises in order to enrich the experience of the children. It also includes the 'hidden curriculum', or what the children learn from the way they are treated and expected to behave. We aim to teach children how to grow into positive, responsible people, who can work and co-operate with others while developing knowledge and skills, so that they achieve their true potential.

2. Values

2.1 Our school curriculum is underpinned by the values that we hold dear at our school. The curriculum is the means by which the school achieves its objective of educating children in the knowledge, skills and understanding that they need in order to lead fulfilling lives.

2.2 Our school is in full agreement with the values statement included in the introduction to The National Curriculum Handbook for Primary Teachers in England. These are the main values of our school, upon which we have based our curriculum:

- We value the way in which all children are unique, and our curriculum promotes respect for the views of each individual child, as well as for people of all cultures.

- We value the spiritual and moral development of each person, as well as their intellectual and physical growth.
- We value the importance of each person in our community. We organise our curriculum so that we promote co-operation and understanding between all members of our community.
- We value the rights enjoyed by each person in our society. We respect each child in our school for who they are, and we treat them with fairness and honesty. We aim to enable each person to be successful, and we provide equal opportunities for all the children in our school.
- We value our environment, and we aim, through our curriculum, to teach respect for our world, and how we should care for it for future generations, as well as our own.

3. Aims and objectives

3.1 The aims of our school curriculum are:

- to enable all children to learn and develop their skills to the best of their ability;
- to promote a positive attitude towards learning, so that children enjoy coming to school, and acquire a solid basis for lifelong learning;
- to teach children the basic skills of English, Maths, Science and Information Technology (ICT);
- to enable children to be creative and to develop their own thinking;
- to teach children about their developing world, including how their environment and society have changed over time;
- to help children understand Britain's cultural heritage;
- to enable children to be positive citizens in society;
- to fulfil all the requirements of the National Curriculum and the Derbyshire Agreed Syllabus for Religious Education;
- to teach children to have an awareness of their own spiritual development, and to understand right from wrong;
- to help children understand the importance of truth and fairness, so that they grow up committed to equal opportunities for all;
- to enable children to have respect for themselves and high self-esteem, and to be able to live and work co-operatively with others.

4. Organisation and planning

- 4.1 We plan our curriculum in three phases. We agree a long-term plan for each key stage. This indicates what topics are to be taught in each term, and to which groups of children. We review our long-term plan on an annual basis. This plan follows a two-year rolling programme to accommodate mixed-age classes.
- 4.2 With our medium-term plans, we give clear guidance on the objectives and teaching strategies that we use when teaching each topic. Our English and Maths will link the theme of the topic where possible. However, discrete English and Maths will also be taught.
- 4.3 Our short-term plans are those that our teachers write on a weekly or daily basis. We use these to set out the learning objectives for each session, and to identify what resources and activities we are going to use in the lesson.
- 4.4 In the Foundation Stage and at Key Stage 1 we adopt an inter-disciplinary topic approach to curriculum planning. We plan the curriculum carefully, so that there is coherence and full coverage of all aspects of the National Curriculum and Early Learning Goals, and there is planned progression in all curriculum areas.
- 4.5 At Key Stage 2 the curriculum at our school places a greater emphasis on the core and foundation subjects than it does at Key Stage 1, and we teach these subjects separately. This means that, for example, a child may concentrate in one term on a history topic, then switch to a greater emphasis on geography in the next term. Over the six terms of the academic year, each child has the opportunity to experience the full range of National Curriculum subjects: taught on a two-year rolling programme.

5. Lessons

Lessons will be fun and engaging. Children will have many opportunities to talk about their ideas and learning within the lesson.

Lesson Intentions (LI) will be based on a broader theme which are underpinned by a more specific Success Criteria (SC). These LI and SC will be shared with the children but will not necessarily be visible throughout the whole lesson. A successful lesson will see children making greater progress towards the broader LI however we believe children learn in greater depth through repetition. Children cannot achieve the LI of 'adverbs' for instance in one lesson but we aim for children to progress towards this.

We do not have a specific time in which children need to be working independently as all lessons follow their own unique path; however, we ensure our teaching pace is appropriate to the children. We uphold and value teachers as professionals and allow freedom to lead the learning in their classrooms. As a result, variety and differing teaching styles are evident in all classrooms which are underpinned by our core values and aims.

6. Children with Special Educational Needs

- 6.1 The curriculum in our school is designed to provide access and opportunity for all children who attend the school. If we think it necessary to adapt the curriculum to meet the needs of individual children, then we do so only after the parents of the child have been consulted.
- 6.2 If a child has a special need, our school does all it can to meet these individual needs. We comply with the requirements set out in the SEND Code of Practice in providing for children with special needs. If a child displays signs of having additional needs, his/her teacher makes an assessment of this need. In most instances the teacher is able to provide resources and educational opportunities which meet the child's needs within the normal class organisation. If a child's need is more severe, we if necessary, use the support provided by Learning Support Assistants, and we involve the appropriate external agencies
- 6.3 **Provision Map:** This sets out the nature of the special need, and outlines how the schools will aim to address the need. It also sets out targets for improvement, so that we can review and monitor the progress of each child at regular intervals.

7. The Foundation Stage

- 7.1 The curriculum that we teach in the reception class meets the requirements set out in the revised National Curriculum at Foundation Stage. Our curriculum planning focuses on the Early Learning Goals and on developing children's skills and experiences, as set out in this document.
- 7.2 Our school fully supports the principle that young children learn through play, and by engaging in well-planned structured activities. Teaching in the reception class builds on the experiences of the children in their pre-school learning. We do all we can to build positive partnerships with the variety of nurseries and other pre-school providers in the area.
- 7.3 During the children's first term in the reception class, their teacher begins to record the skills of each child on entry to the school. This assessment forms an important part of the future curriculum planning for each child. The Foundation Stage Profile is used to assess children's progress during the year.

7.4 We are well aware that all children need the support of parents and teachers to make good progress in school. We strive to build positive links with the parents of each child by keeping them informed about the way in which the children are being taught and how well each child is progressing.

8. Key skills

8.1 The following skills have been deemed 'key skills' in the revised National Curriculum:

- communication;
- application of number;
- information technology;
- working with others;
- improving own learning and performance;
- problem-solving.

8.2 In our curriculum planning we plan to help children develop these skills, so that the children's progress can be identified and monitored. All subject areas contribute to a child's progress in these skills. Our school believes that all children need to make good progress in these skill areas in order to develop to their true potential.

9. The role of the subject leader

9.1 The role of the subject leader is to:

- provide a strategic lead and direction for the subject;
- support and offer advice to colleagues on issues related to the subject;
- monitor pupil progress in that subject area;
- provide efficient resource management for the subject.

9.2 The school gives subject leaders non-contact time each term, so that they can carry out the necessary duties involved with their role. It is the role of each subject leader to keep up to date with developments in their subject, at both national and local level. They review the way the subject is taught in the school and plan for improvement. This development planning links to whole-school objectives. Each subject leader reviews the curriculum plans for their subject, ensures that there is full coverage of the National Curriculum and that progression is planned into schemes of work. The subject leader may also keep a portfolio of children's work, which s/he uses to show the achievements of children at each key stage and to give examples of expectations of attainment.

10. Monitoring and review

- 9.1 Our governing body is responsible for monitoring the way the school curriculum is implemented. The governors review each subject area according to the policy review timetable.
- 9.2 We have named governors for all areas of the curriculum. The governors liaise with the subject leaders of these areas and monitor closely the way the school teaches these subjects.
- 9.3 The headteacher is responsible for the day-to-day organisation of the curriculum. The headteacher monitors the long-term plans for all teachers, ensuring that all classes are taught the full requirements of the National Curriculum.
- 9.4 Subject leaders monitor the way their subject is taught throughout the school. They examine long-term and medium-term planning and ensure that appropriate teaching strategies are used. Subject leaders also have responsibility for monitoring the way in which resources are stored and managed.

Policy Review

This policy was reviewed by teaching staff in March 2026 and will be reviewed every three years in accordance with our schools' policy planner.

We will review this policy earlier than the scheduled review date should there be any change in guidance or legislation related to this policy or should we feel that an earlier review is necessary.
